

SPINAL CORD INJURY
RESEARCH SYMPOSIUM
Featuring John A. Kessler, M.D.
Northwestern University
Stem Cell Institute

Sunday, May 2, 2010 at 1:30 PM
Earle Brown Heritage Center, 6155 Earle Brown Drive
Brooklyn Center, Minnesota

Dr. John A. Kessler is a pioneer in the field of regenerative neurology. His recent work focuses on developing techniques for using nanoengineered materials in combination with stem cells. His work with stem cells and growth factors has helped pave the way for new strategies to repair the damaged nervous system. Dr. Kessler will discuss the status of spinal cord injury research around the world and the research funded by Morton Cure Paralysis Fund. He will also answer questions from the audience.

Ms. Becky Peters, President, Morton Cure Paralysis Fund, believes that through increased funding for research a cure for paralysis will be found and her dream of walking will come true. Her message of hope and advocacy is inspiring.

*Presented by the Morton Cure Paralysis Fund. Open to all who care about curing paralysis ... the injured, family, friends, & medical professionals.
FREE ADMISSION. Refreshments served.*
