

**FREE SPINAL CORD INJURY
RESEARCH SYMPOSIUM**
Featuring
Anthony J. Windebank, M.D.
Mayo Clinic

Sunday, May 17, 2009 @ 1:30 p.m.
Earle Brown Heritage Center, 6155 Earle Brown Drive
Brooklyn Center, Minnesota 55430

Dr. Anthony J. Windebank directs the Neural Regeneration Program at Mayo Clinic where the Spinal Cord Injury Research Group focuses on using tissue engineering to rebuild damaged tissue and restore function. Tissue engineering is a rapidly advancing field which combines engineering, stem cells, and polymer chemistry to construct new tissues. Mayo Clinic is positioned to become a world leader in spinal cord injury repair. Dr. Windebank will share his MCPF-funded research and provide an update on research worldwide.

Becky Peters, President of the Morton Cure Paralysis Fund, will share her dream to walk again. Becky is confident that, through science and financial support, her dream will come true. Hear her inspiring message of advocacy for those living with paralysis and her hopes for when a cure is found.

Presented by the Morton Cure Paralysis Fund. OPEN TO ALL!
PLEASE JOIN US! Refreshments will be served.

Space is limited!
